## Care and Maintenance

SOPHSTONE is a smooth, durable, stain-resistant product. Wash with an all purpose cleaner or soap and water, then rinse. Wipe dry with a soft cloth to remove any surface dirt. Avoid using cleaning products with strong chemicals or acids, as these products can harm your SOPHSTONE surface. If more protection is required, TENAX Quartz Shield can be applied as needed.

Surface staining agents should be removed as soon as possible. Cleaning area with all purpose cleaner. Rinse with water. Depending on the staining agent, acetone or cream cleaners with bleach (Soft Scrub) may also be used.

Surface scratch removal starts with 400 grit “Wet n Dry” sandpaper working in a circular motion with water and gently sand out the scratch. Proceed to Scotch-brite Ultra Fine Hand Pad 7448 with water to help blend the repaired area with the surrounding surface. Gently wipe clean with acetone on a clean white microfiber cloth to remove dust and restore your SOPHSTONE composite to its original state.

\* Deeper scratches may require starting with a 120 grit, followed by a 240 grit then 400 grit followed by the above directions.
